

TRIPOD+AI checklist

Recognising the phone, not the throat: deconfounded evaluation and shortcut mitigation for smartphone pharyngitis classification

Checklist version of 11 January 2024 (Collins et al., BMJ 2024;385:e078378). Page numbers refer to the submitted manuscript PDF; “Supplementary refers to the separate supplementary material file.

Item	Topic	Where reported	Page
1	Title	Title page	1
2	Abstract	Abstract (structured)	3
3a	Background	1 Introduction	4
3b	Intended use	1 Introduction	5
3c	Health inequalities	1 Introduction; 4.7; Supplementary Section S8	5
4	Objectives	1 Introduction (contributions)	5
5a	Data source	3.1 Dataset	8
5b	Dates	3.1 Dataset	8
6a	Setting, centres	3.1 Dataset; 4.1	8
6b	Eligibility	3.1 Dataset	9
6c	Treatments	3.1 Dataset	9
7	Data preparation	3.3 Preprocessing; 3.1	9
8a	Outcome	3.2 Labels	9
8b	Outcome assessors	3.2 Labels; 4.1 (raters by site)	9
8c	Blinding of outcome	3.2 Labels	9
9a	Choice of predictors	3.3 Preprocessing; 3.5 Models	9
9b	Predictor definitions	3.1 Dataset; 3.3	8
9c	Predictor assessors	3.1 Dataset (symptoms recorded at collection; details not reported in source)	8
10	Sample size	3.1 Dataset	9
11	Missing data	3.3 Preprocessing	10
12a	Use of data, partitioning	3.4 Evaluation protocol	10
12b	Predictor handling	3.3 Preprocessing	9
12c	Model type, tuning, internal validation	3.4; 3.5 Models	10
12d	Heterogeneity across clusters (sites)	3.6 Shortcut audit; 3.7 Deconfounded AUC; 3.8 Shortcut mitigation	11
12e	Performance measures	3.7 Deconfounded AUC; 3.9 Statistics	12
12f	Model updating	Not applicable (no external evaluation or recalibration)	–
12g	How predictions were calculated	Code availability; 3.10 Implementation	30
13	Class imbalance	3.5 Models; Supplementary Section S6	10
14	Fairness	3.9 Statistics; 4.7; Supplementary Section S8	15
15	Model output, thresholds	3.4 Evaluation protocol	10
16	Training vs evaluation differences	3.4 (same population; cross-validation); 3.6 cross-phone transfer	11
17	Ethical approval	3.1 Dataset; Ethics statement	8
18a	Funding	Funding	29
18b	Conflicts of interest	Declaration of competing interest	29
18c	Protocol	Protocol, registration and patient involvement	30
18d	Registration	Protocol, registration and patient involvement	30
18e	Data sharing	Data availability	30
18f	Code sharing	Code availability	30
19	Patient and public involvement	Protocol, registration and patient involvement	30
20a	Participant flow	4.1 Cohort; Fig. 1; Table 1	15
20b	Participant characteristics	4.1 Cohort; Table 1	15
20c	Development vs evaluation distributions	Not applicable (cross-validation on one dataset); per-phone characteristics in Table 1	–
21	Participants and events per analysis	3.2 Labels; 3.4; Table 1; Supplementary Table S6	9

Item	Topic	Where reported	Page
22	Full model specification	3.5 Models; Supplementary Section S4; Code availability	10
23a	Performance with CIs, subgroups	4.2; Tables 2, 4; Supplementary Fig. S7	15
23b	Heterogeneity across clusters	4.3–4.6; Tables 3–5; Figs. 2–4	16
24	Model updating results	Not applicable	–
25	Interpretation	5 Discussion	25
26	Limitations	5.1 Limitations	28
27a	Poor-quality input data	5 Discussion (Implications)	27
27b	User interaction and expertise	5 Discussion (Implications)	27
27c	Next steps	5 Discussion (Implications); 6 Conclusion	27
